MEMORANDUM FOR: Designated Recipients

SUBJECT: Liaison Support Material - Communist Infiltration
of Government

1. We are attaching a copy of a short paper prepared on the basis of captured documents of CP Guatemala. This paper, in our opinion, provides, in an inherently convincing and dramatic form, an illustration of Communist aims and methods of exploitation of relationships with key nationalist governmental figures, which can be particularly useful material for presentation to specific individuals of political importance in your area who have shown tendencies toward either accepting Communist overtures or minimizing the threat of current Communist tactics.

2. It is requested that you determine what specific individuals might profitably be given this paper, and request additional copies from [REDACTED]
